

ASC 2011 Spring EXHIBIT GUIDE

Monday, April 18

Your guide to onsite product solutions!

**TAMPA MARRIOTT WATERSIDE HOTEL & MARINA
GRAND SALON F-J**

MONDAY, APRIL 18

4:00 - 7:00 p.m.

RECEPTION

6:00 - 7:00 p.m.

Another signature industry event brought to you by

THE **ADHESIVE AND SEALANT** COUNCIL, INC.

SECURING THE FUTURE®

A permanent affair.

Visit our new website
www.evonik.com/adhesives-sealants

You are interested in tailor-made solutions and services? You are looking for a key player who assists you to create high performance products for the adhesives and sealants industry? Our experts await your next challenge!

Evonik Industries is one of the major suppliers to the adhesives industry. Based on various chemical platforms we offer products which enable adhesive

manufacturers to enhance their formulations to achieve higher performance and effectiveness. The constantly growing range of products and solutions reflects our innovation and flexibility, the answer to modern market demands.

For further information please visit our website or send an e-mail to:

Visit us at our booth or on the web at <http://BayerMaterialScienceNafta.com>.

Sylvalite® RE100L vs. Tyrannosaurus Rex

Always bet on the renewable resource.

There is a reason that fossils are fossils. They become extinct when they can no longer compete. ASTM tests show that Sylvalite® RE100L is 94% comprised of bio-based renewable resources. For you, that means great availability and being part of the solution. Arizona Chemical – the natural choice for adhesive raw materials.

For complete ASTM test results and more information go to: www.arizonachemical.com.

Kraton® Polymers, the world's leading manufacturer and supplier of styrenic block copolymers, can bring improved performance and processing benefits to the adhesives sector. Its innovative Kraton D and G polymers allow customers to tailor adhesive properties for demanding applications such as packaging tape, labels, disposables and sealants.

WHAT COULD YOU DO WITH AN ADHESIVE THIS GOOD?

Adhesives are critical elements to successful manufacturing. Regardless of the surface, when designing a bonding solution for metal, wood or plastic, Kraton Polymers' premium elastomers deliver a broad array of customized options.

Whether you are targeting increased processing speed or alternative functionality, Kraton® polymers can give you optimal versatility with world-class quality. Kraton products enable you to deliver proven cost savings and enhanced performance in diverse film, label and personal care applications. With these capabilities, you can understand what makes Kraton Polymers a global leader in the industry.

For all your adhesive and sealant needs, Kraton Polymers is your single source for highly innovative solutions, service and support.
