

ASC 2004 Fall Convention

Table of Contents

Monday Morning General Session (Keynote)

Profitable Top-Line Growth -- It's All About Value

Dr. James D. Hlavacek, *The Corporate Development Institute, Inc.*

Environment/Regulatory Issues: Meeting Challenges for Conservation and Compliance

Replacement of High VOC Products Using Moisture Reactive Technology

Jonathan Stuart, *Bostik Findley Inc.*

Commercially Feasible Environmentally Benign Pressure Sensitive Adhesive Products

Mark Kroll, *H.B. Fuller Company*

Getting Ready for REACH

Herb Estreicher, *Keller & Heckman LLP*

Easing the Introduction of New Reactive Polymers to the Canadian Market

Neil Bullock, *Cantox Health Sciences International*

Protecting Corporate Directors and Officers When Compliance Issues Arise

Michael Dore, *Lowenstein Sandler PC*

Trends in Technology I: Maximizing Innovation and Efficiency

Water-based Systems Make Inroads into Traditional Solvent-borne Technology

Jim Robbins, *Akron Rubber Development Laboratory, Inc.*

Pumping Adhesives and Sealants: Application of Sealless Pump Technologies

John Petersen, *Viking Pump, Inc., a Unit of Index Corporation*

New Ortho-Phthalate Based Prepolymers for Flexible Packaging Adhesives

Michael O'Brien, *Stepan Company*

The Use of Speciality-Coated Fibre Glass Geo-Textiles in the Construction Industry

Shrikant Athavale, *Flexo Film Wrap Ltd. (India)*

Light Cure Acrylic Adhesives Facilitate Fabric Lamination

Edwin Perez, *Henkel Technologies*

Designing Adhesives/Formulation I: Solution Driven Design—Adding Value to Performance

Development of New Curable Liquid Telechelic Polyacrylate

Yoshiki Nakagawa, *Kaneka Corporation*

Silylated Polyurethane (SPUR) Prepolymers: Property Tailoring

Misty Huang, *GE Advanced Materials-Silicones*

The Effect of the Diphenyl Siloxy Group on the Characteristics of Silicone Polymers

Matthew Napoli, *Anderson & Associates LLC*

Trends in Technology II: Finding Market Driven Solutions

New Two-Component Adhesive Packaging That Fits in Standard Caulking Guns; Available in 1:1, 2:1 & 10:1 Ratio

Bob Slavens, *TAH Industries Inc.*

Technology Trends in the North American Adhesives Industry

William Broxterman, *The ChemQuest Group, Inc.*

Joining Issues in the Implementation of Fiber Reinforced Polymer (FRP) Composites in the Civil Infrastructure

Jack Lesko, *Virginia Tech University*

Designing Adhesives/Formulation II: Leveraging Design and Formulation

Stabilizers for Improved Hot Melt Adhesives

Robert E. Lee, *Mayzo Inc.*

New Adhesive for Exterior Deco Applications by STPe and Epoxy Blend

Calvin Shen, *Kaneka Corporation*

Issues Relating to the Use of Nanoindentation to Characterize Soft Material

Christopher White, *National Institute of Standards and Technology*

Hot Melt Adhesives: Leading Edge Solutions

High Flow AFFINITY-based Hot Melt Adhesives

Selim Yalvac, *The Dow Chemical Company*

Put Adhesive Where You Need It

Larry Saidman, *Nordson Corporation*

Hot Melt Silicone PSAs

Loren Lower, *Dow Corning Corporation*

Automotive: Better, Lighter, Faster! Meeting Manufacturing Challenges

Adhesives in Automotive Interiors: Versatile and Economic

Bob Smith, *The ChemQuest Group, Inc.*

Automotive Sealants Using Recycled Paint Waste Stream

Siddhartha Asthana, *ADCO Products, Inc.*

Innovative Crash Durable Automotive Body Adhesives for Better and Lighter Cars

Andreas Lutz, *Dow Automotive Switzerland*

New Technology for Processing Sealers in Automotive OEM Body & Paint Shops and Stamping Operations

Ted McMillin, *Orbseal LLC*

Marketing Strategies: Inside the Eight Ball-Taking Advantage of Market Dynamics

The Adhesive and Sealant Market in the Americas

Dave Nick, *DPNA International, Inc.*

Managing Energy and Raw Material Costs through Hedging

Scott Smith, *BayerMaterialScience LLC*

Recovering Raw Material and Energy Cost Increases

George Cressman, *Strategic Pricing Group, Inc.*

The following authors/presenters have requested that their presentations not be included on the official CD-Rom:

Designing with Adhesives: Promise, Problems, and Progress

David Dillard, *Virginia Tech University*

Next Advances in Silane Adhesion Promoter Technology

Roy Griswold, *GE Advanced Materials-Silicones*

Reactive Hot Melt Sealant for Window Glazing Application

Ju-Ming Hung, *National Starch and Chemical Company*
