

**Waterborne Adhesives Short Course
Renaissance Nashville Downtown
Nashville, TN
October 15-16, 2006**

Market & Application Overview

David Nick, DPNA International

VA/VAE Emulsion Polymerization Overview

Rich Vetterl, Forbo Adhesives

Styrene Butadiene Emulsions and Adhesives

Jack McConnell, Mallard Creek Polymers

Plasticizers

Bill Arendt, Velsicol Chemical Company

Waterborne Acrylic Polymers for Adhesives

Eric Bartholomew, Avery Dennison

Polyurethane Dispersions for Adhesive Applications

Jeff Dormish, Ph.D., Bayer MaterialScience

Formulating and Applications of Waterborne Adhesives

Dave Horwat, Air Products

Formulating with Resin Dispersions

Laura Martin, Ph.D., Eastman Chemical Company

Production Equipment

Ken Langhorn, Charles Ross & Son Company

Antioxidants/Biocides

Chris Fagouri, Ciba Specialty Chemicals

Application Equipment

Jeff Reece, Nordson Corporation

Surfactants, Defoamers and Rheology Modifiers for Waterborne Adhesives

Ken Breindel, Cognis Corporation

End Use Application in Construction

Steve Lontchar, Bostik Inc.

Switching from Solvent-Based Contact Adhesives to Water-Based Contact Adhesives

George Clipson, 3M

End-Use Application - Packaging

Kristina Thompson, National Starch & Chemical Company

Polychloroprene Dispersions for Adhesives

Bill Dunn, ITW Performance Polymers
